

HONEY TASTE SURVEY

Are you over 18?

Do you currently live in Australia?

Do you love honey?

If you answered **YES** to all three questions, then we'd love to hear from you.

NSW Department of Primary Industries and Regional Development Sensory and Consumer Science Researcher, Dr Soumi Paul Mukhopadhyay, is conducting a survey on Australian honey and your input could be critical to our research and Australian beekeepers.

If you are keen to help us understand Australian honey consumers better, then scan the QR code to complete this 10-minute survey. **Survey closes 31 August.**
